

**Thank you for using our Wireless Network Print Service.**

*(Currently available **only** at Cumberland County Library.)*

**Would you like to Print from the wireless Network? If Yes, proceed to options A or B.**

□ **Option A) If you are a first time user:**

1. [Download](#) the file.
2. Click "Yes" to download and Run. (Depending on your browser, you may need to download first, and then launch the PrintControl\_v3.exe file)
3. When the Installation completes, a small window will appear on the bottom right corner of your desktop.
4. Click on "Start Print Session". When the next window appears, enter your library card number and PIN, and choose the library you are printing to. [If you not belong to the library, see a staff member about obtaining a card or visitor pass.]
5. When submitting print jobs, select the "Wireless Printer" to submit your jobs. Any print job submitted while logged in can be retrieved at the Print Release Station.
6. To end the wireless print session, click on "Terminate session".
7. To Exit print Client, click on "Terminate Print Client".

**Option B) If you are a returning user:**

1. Go to Start --> Programs --> Wireless Library Print System --> Wireless Print System
2. Click on "Start Print Session".
3. When the next window appears, enter your library card number and PIN, and choose the library you are printing to.
4. When submitting print jobs, select the "Wireless Printer" to submit your jobs. Any print job submitted while logged in can be retrieved at the Print Release Station.
5. To end the wireless print session, click on "Terminate session".
6. To Exit print Client, click on "Terminate Print Client".

**Uninstalling Print Module from your laptop:**

**If you no longer need Library Wireless printing and are ready to uninstall the print module from your laptop, go to Start --> Programs --> Wireless Library Print System --> Uninstall Wireless Library Print System. This will completely remove the print module from your wireless device.**
